**Compliancy Offers Cyber Security Services**  
*Compliancy is now certified to perform key Cyber Security Audits*

Research Triangle Park, NC – February 16, 2016. Companies are under an unprecedented barrage of requests for information security audits and accreditations and for good reasons. Companies are concerned over the strength and comprehensiveness of cybersecurity in the U.S., as companies across the country are being targeted in cyber-attacks at an increasing rate of both occurrence and cost. Concerns continue to grow as both the number of attacks on companies' networks and the cost to companies are increasing. With the rapid growth of malicious attacks, there has never been a higher risk to corporate, customer, credit card, and PI/PHI data. This has caused a burden on particularly the small and mid-sized enterprise that has reached a point of real impact on bottom line and growth.

Compliancy is leveraging its 14 years of experience in information security and audit services to introduce cyber security solutions for small / mid-market. This solution will allow customers to get ahead of the increasing cyber-attack threats and comply with regulations and standards. Cyber security is a synergistic addition to Compliancy's information security services. This addition makes Compliancy a comprehensive provider of information security, compliance and audit services.

Compliancy will continue, not only to invest in its technology but is focused on total compliance solutions by offering services to assist organizations improve information security and in attaining and maintaining compliance with multiple information and business standards and regulations. Contact Compliancy at [www.compliancy.com](http://www.compliancy.com) to learn more about how our experience is assisting organizations today.
