Alcatel-Lucent Selects Compliancy Software to Automate Their Anti-Corruption Practices

October 7, 2008 **--** Compliancy Software, provider of next generation GRC Plus™ solutions for automating business processes for Governance, Risk management, and Compliance (GRC) regulations Plus any general business processes was selected by Alcatel-Lucent to automate their anti-corruption processes that address the Federal Corrupt Practices Act (FCPA).

Alcatel-Lucent provides solutions that enable service providers, enterprise and governments worldwide, to deliver voice, data and video communication services to end-users. Alcatel-Lucent is a global leader in fixed, mobile and converged broadband networking, IP technologies, applications and services, offering end-to-end solutions that enable compelling communications services for people at home, at work and on the move with operations in more than 130 countries.

Alcatel-Lucent chose the Compliancy solution for its easy implementation of compliance regulation controls, integrating with its general business processes, integrating across divisions in several countries, and the flexibility of customizing the management interface to fit Alcatel-Lucent's process structure, terminology and usability requirements.

"Compliancy's solution for Alcatel is a testimony to being able to address enterprise wide and global compliance and business process automation requirements inherent in a regulation like FCPA," said Mark Shaw, President and co-founder of Compliancy Software. "It is unique with it flexibility and customizability with built-in regulatory level controls structures and processes to ensure compliance of any business process whether it is regulatory or any general business operation."

Compliancy's application is an integrated BPM-based automation solution that is easier to use with integrated roles driven interfaces and its unique Individualized Task Routing™ (ITR) so that task owners only deal with their specific tasks thus eliminating access to complex systems and significantly reducing training and support costs. It offers advanced capabilities such as continuous control monitoring, rules driven escalations, customizable alerts and reporting, and web services driven application integration.

About Compliancy Software
Compliancy Software provides a single application that is BPM-based for automating any business processes with built-in compliance level controls to ensure results. Companies have the flexibility to start anywhere and grow to address all their Governance, Risk Management, and Compliance (GRC) requirements PLUS their general business operations such as financial processes. Compliancy Software is experienced in a broad range of process automation implementations across multiple regulatory compliance and business operations such Sarbanes-Oxley, FCPA, Month End Close and General Ledger reconciliation, Budget processes, Security processes and more. Compliancy Software can provide solutions ranging from on premise mid-market enterprise solutions to Software-as-a-Service to best fit a company's budget and requirements.
