Compliancy Announces GlobalTrak™ for More Effective World-Wide Management of FCPA/Anti-Corruption and GRC Compliance

Research Triangle Park, NC – October 22, 2012. Compliancy, a leader in FCPA/Anti-corruption and GRC automation solutions, announced the availability GlobalTrak for more effective world-wide management of FCPA/Anti-corruption and GRC compliance.

GlobalTrak provides color coded global maps with statistical information to give managers a real-time, easy to use status on compliance performance and drill down capabilities to investigate details. GlobalTrak can be tailored to track any key indicators such as risk level, resources, money spent, red flags, number of 3rd parties, and levels of compliance complete with alert generation.

GlobalTrak is the first available real-time global management tool that improves world-wide management effectiveness in identifying potential problem areas, setting action priorities, and following up on compliance requirements. It can be especially useful in hard to track third party due diligence and risk areas associated with FCPA/Anti-corruption which is inherently a multi-country problem.

GlobalTrak is a part of the Compliancy FCPA/Anti-Corruption and GRC compliance automation solution providing a secure platform for complete evidence tracking and regulatory level control management capabilities. This includes automation of all compliance and business processes, document management, rules based routing, segregation of duties, security authorization, testing/auditing, certifications, evidence tracking, alerts, issues management and reporting.

“Compliancy’s provides the leading software automation solution for FCPA/Anti-corruption and GRC compliance automation with specific automation modules designed to address their key requirements,” said Mark Shaw, President and co-founder of Compliancy. “Furthermore, Compliancy is unique with it flexibility to utilize current investments and then tailor the solution to a customer’s unique needs.

About Compliancy Software

Compliancy specializes in custom tailored risk and compliance automation solutions such as FCPA/Anti-corruption and other GRC applications by leveraging a company’s investment in existing controls, processes and compliance programs. Processes and controls unique to the company and industry can be easily automated and standardized to accelerate process completion, more effectively manage risk and lower the cost of management.

Large multi-national, mid-size companies and government agencies choose Compliancy because of its greater flexibility and cost effectiveness. Compliancy makes it simpler to automate and integrate both a broad range of GRC requirements such as FCPA, Sarbanes-Oxley, and OMB A-123 and internal processes such as Financial Close Management. Compliancy can custom tailor the right program to best fit a company’s needs and budget whether on-premise or Software-as-a-Service.
